Preface

I had the opportunity to read the book ' My Vision – Challenges in the Race for Excellence' written by H.H Sheikh Mohammed bin Rashid Al Maktoum. I was so impressed and attracted by the contents of the book, and from a management professional point of view, it reflected many deeper thoughts on Leadership, Management, Vision, Governance, Excellence, Mind Power, Peace and Globalization. It inspired me to filter out those thoughts and words (Contents of the book) in the form of 'Quotes' by H.H. Sheikh Mohammed and driven me to compile and edit it as a brief handout. It is going to be of immense use specially for the students of management across the world.

May I hereby dedicate this handout(around 300 Quotes) to H.H Sheikh Mohammed bin Rashid AL Maktoum as a mark of appreciation
